DETAILED ACTION

1. This application has been examined. Claim 1 is pending.

Claim Objections

2. Claim 1 is objected to because of the following informalities: The claim ends with a semicolon rather than a period as required. The claim must be a single sentence. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Wendel et al. Note the system for shutting off water including a solenoid valve 45 closed in response to a sensed leak. See column 4, lines 49+. An alarm circuit 30 is disclosed. See Figure 2.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
